// EXECUTIVE SUMMARY

Master of Computer Applications (MCA) graduate specializing in **RPA, Process Automation, and MIS Systems**. Experienced in building human-in-the-loop Python/Selenium pipelines, Microsoft Power Automate flows, and Google Apps Script solutions. Adept at eliminating manual operational bottlenecks, automating multi-page portal workflows, and transforming raw billing data into actionable executive insights.

// PROFESSIONAL EXPERIENCE

Trainee MIS & Automation Executive Nov 2025 – Present
Digiclarify Global Solutions | Tamil Nadu, India

- Engineered a human-in-the-loop Python and Selenium automation suite for the Echo portal via Chrome debugging, safely bypassing MFA/SSO and cutting handling time by ~80%.
- Scraped multi-page financial data tables into consolidated Excel workbooks using Pandas.
- Built an interactive CLI tool to batch-download, classify, and dynamically rename EOB PDFs based on payment status (cleared, not cleared, payer direct).
- Architected Google Apps Script workflows to automate monthly sheet generation, metadata extraction from email IDs, and dynamic date-bound file indexing.
- Created automated verification scripts to audit billing transactions as posted or unposted.
- Delivered executive MIS summaries and resolved data variances using Advanced Excel and SQL.

Trainee MIS Executive June 2024 – Oct 2024
HDB Financial Services (HDBFS) | Tamil Nadu, India

- Managed financial data logs and audited customer inputs to ensure compliance and zero error rates.
- Conducted root-cause analysis on discrepancies and designed executive MS Excel KPI dashboards.

Web Development & QA Intern June 2023 – July 2023
Nextskill Technologies | Coimbatore, India

- Audited web modules with JavaScript, HTML, and CSS for front-end DOM manipulation and back-end MySQL consistency.
